SUMMARY

Product-first builder with 1.5+ years of experience shipping full-stack Web3 and SaaS products. Built and launched Everyday App on Starknet, securing a \$25,000 grant from the Starknet Foundation and recording 10,000+ monthly on-chain transactions at peak. Co-founded Alchemiz, an AI automation agency that scaled to 100+ clients and 50,000+ INR MRR in 5 months. Experienced across the full stack — React, Next.js, Flutter, Node.js, PostgreSQL, Docker — with hands-on Web3 experience across Starknet, Ethereum, BSC, Solana, and Monad. Currently in 3rd year of B.E. at University of Pune.

EDUCATION

University of Pune 2023 - 2027

B.E., Electronics & Computer Engineering

Coursework: OOP, Operating Systems, Data Structures & Algorithms, Database Systems, Distributed Systems

SKILLS

Languages: TypeScript, JavaScript, Python (Currently exploring: Solidity, Rust)

Frontend: React, Next.js, Flutter, Tailwind CSS, Figma

Backend & Infra: Node.js, Bun, Express.js, Docker, NGINX, GCP, Vercel, Railway

Databases: PostgreSQL, Supabase, MongoDB, MySQL, Redis

Web3: Starknet, Noir ZK, Privy, Moralis, IPFS, ENS, BSC, Ethereum, Solana, Monad

Soft Skills: Fast execution, Product thinking, UI/UX design, End-to-end ownership

EXPERIENCE

Product & Founding Engineer | [Mentibus](https://mentibus.com) Jul 2025 - Present

- Developed and shipped end-to-end product features for a blockchain analytics infrastructure platform used by Web3 teams.
- Owned the full design-to-production pipeline across 5+ major features, translating Figma designs into production-ready UI handling thousands of real-time on-chain data requests.
- Stack: TypeScript, Next.js, Tailwind CSS, PostgreSQL, Prisma, Figma.

CEO & Co-Founder | [Everyday App](https://everydayapp.com) Jun 2025 - Present

- Built and launched a full-stack on-chain habit tracking application on Starknet, covering mobile (Flutter), web (Next.js), and serverless backend infrastructure.
- Secured \$25,000 non-dilutive Seed Grant from the Starknet Foundation. Achieved 10,000+ monthly on-chain transaction volume at peak.
- Selected for 0xOutpost Residency, the Starknet Foundation's exclusive program for exceptional ecosystem builders.
- Stack: Flutter, Next.js, TypeScript, Vercel, Supabase, Privy, PostgreSQL, Node.js.

Co-Founder | [Alchemiz](https://alchemiz.com) Aug 2024 - Mar 2025

- Co-founded an AI automation agency delivering end-to-end workflows for local businesses including WhatsApp bots, email marketing automation, and social media schedulers.
- Grew to 100+ paying clients on retainer and 50,000+ INR MRR within 5 months, with zero external funding.

Full-Stack Developer | [Freelance](https://freelance.com) 2024 - Present

- Delivered client projects across Laravel, React, Express.js, Socket.IO, MongoDB, Firebase, and WordPress, deployed via Docker and NGINX.

PROJECTS

[Whadar - Crypto Whale Intelligence Platform](https://whadar.com) 2025 - Present

- Designed and built a crypto whale tracking and analytics platform powered by a proprietary Kraken Algorithm that identifies high-performing whale wallets, maps wallet networks, and detects insider trading patterns on BSC.
- Implemented token scanner, rug pull and honeypot detection, whale leaderboard, and integrations with Coingecko, Dexscreener, and Bubblemaps.
- Stack: Node.js, TypeScript, Moralis API, Railway.

ETH Mumbai Pay - Private On-Chain PayrollETH Mumbai Hackathon Winner, Mar 2026

- Built a private on-chain payroll system featuring ENS subdomain-based employee identities, encrypted salary contracts stored on IPFS via Fileverse, and stealth address payments with zero on-chain identity linkage.
- Implemented Noir ZK circuits, MiMC Merkle trees with Barretenberg UltraHonk proofs, SIWE authentication, and BitGo multi-signature treasury integration.
- Stack: Noir, Solidity, TypeScript, ENS, IPFS, Fileverse, BitGo.

Everyday App - Habit Tracking on StarknetJul 2025 - Present

- Architected and shipped a full-stack habit tracking application where users stake cryptocurrency against daily habits, creating verifiable on-chain accountability.
- Built across three surfaces: Flutter mobile app, Next.js marketing and web platform, and serverless backend on Vercel and Supabase with real-time streak and reward syncing.
- Awarded \$25,000 Starknet Foundation Seed Grant. Recorded 10,000+ monthly on-chain transaction volume at peak.

AWARDS & RECOGNITION

- ETH Mumbai Hackathon - Winner (Mar 2026): Developed ETH Mumbai Pay, a private on-chain payroll system using zero-knowledge proofs for salary privacy.
- Starknet Foundation - \$25,000 Seed Grant (Feb 2026): Awarded non-dilutive grant for Everyday App based on product traction and technical execution.
- 0xOutpost Residency - Selected Builder (Jan 2026): Chosen for the Starknet Foundation's exclusive residency program for exceptional ecosystem builders. Team received grant funding.
- Monad Blitz Hackathon - Winner: Won competitive build sprint in the Monad blockchain ecosystem.
